WILL stand the present season at COTTAGE HILL, on the Frankfort and Georgetown lumpike, 3 miles from the Forks of Elkhorn, and 7 miles from Frankfort, at \$15 to insure a coit, and pasturage furnished gratis to mares coming from a distance. Description and Pedigree.

Description and Pedigree.

Lucifer is a black iron gray. 5 years old, with heavy white mane and tail; 15% hands high, and is a horse eminently calculated to produce stock suited to every purpose for which the horse is required. Being himself beautiful in appearance, of proper size, faultiess in form, mild and gentle in disposition, with action both for harness and said die rarely equalled, very few, if indeed any, horse in Kentucky of his age can show greater trotting speed in harness, and it has been with great difficulty that he has been restrained from going all the saddle galts, being sired by old Snowstorm, who went one gait as naturally as another and all with unparalleled speed and style, and produced more fine saddle and harness horses in the two seasons he made in Kentucky than any other horse known. He was of the pure Norman French breed from Canada, and his coits are commanding wherever found extravagant prices. Lucifer's dam was a large brown mare: blood unknown; was a natural pacer and could, without training, pace her mile in 3 minutes.

If I invite the estention of breeders to this young horse, at his stand, where I have a good track, and where persons wishing to breed can have an opportunity of witnessing his speed.

NUMBER 11.

Some years ago wise, prudent, and benevolent men, in the United States, came to the conclusion that a suitable location for a colony of free blacks from the United States could be commenced on the west coast of Africa. And they found free blacks in the United States who were of the same opinion, and they offered themselves to be colonized in that land. The white people aided them by money and counsel to go to Liberia, and the free blacks who went acted their part to make a good and suitable settlement. Since its commencement yearly assistance has been given by the whites in money, and yearly accessions have been made to its inhabitants by immigrations of free blacks. Time has been required to further the undertaking. A small voluntary society of white men has had to furnish the pecuniary means for the growth of all the parts of the establishment, and the prejudices of the free blacks had to be overcome to procure emigrants. But nothing has occurred to stop its advancement, but what occurred in founding the American colonies. The supporters, and the emigrants to Liberia, have had nothing more disheartening, more embarrassing, more trying, and more perplexing to carry out their object than what the opposition of religious white per sons have combinedly shown toward it. But success has crowned the effort. Whites and blacks can now see a Republican Government in Liberia in fact. It is the only place that presents a home for the free blacks living in this country. This and that land has been spoken of as their best home, but in Liberia alone is to be seen the result of the talk and calculations among some of the whites and blacks. That class of talkers have been actors, and they now hold up a home for the blacks.

Liberia for climate, for permanency of loca tion and adaptedness and promise for a home, cannot be overlooked. It is the land of the Africans, and the Government of Liberia is the government conducted and sustained by Liberi ans. The climate debars white persons from settling there, but God has constituted the African to have the country as their possession for ever. Liberia is a suitable home for the free blacks living in each of the States in this Union The pioneers to settle that land were from all the States. All the free blacks in the same States can move there as fast as practicable .-For some time to come, as the white people will have to pay the expense of the removal there. the annual emigration will be limited in its numbers. But those who now emigrate will have on that I must see him immediately on special business agitators, come from what quarter they may, and their arrival in Liberia only the care and labor to ness.' prepare their land for their residence. Others have borne the burthen of preparing the way for future emigrants to follow and enjoy their labors and sacrifices. They have shaped the opera tion of their Government to secure life, liberty, property, and rights of conscience to all of their race who will settle among them. It has been settled, with the exception of one black person from Barbadoes, by black persons from this country. Its government and its people know no North nor South in the United States. The free in all the States are welcome to share in their civil and social blessings. All who have gone there to live were moved to go there by the same considerations; and all who shall here after go there from our land will be moved to go there from the same considerations; and all who go will find it is the land of the black people. It recognizes only such as its citizens, and gives to them all equal rights, and sustains common schools for the benefit of the children of those citizens. The people are in possession, and in the use of every material to make a wise, pros. | year ending September 1st, 1859, of nine hundred | feeling, and their own clear common sense will perous, rich, strong, moral, and christian na tion, and there can be no interruption in this work by the introduction of the children of affiliated Masons did not then exceed one thou-Japheth or of Shem to be citizens of the land. Now there are three hundred and ten is, and will be, the only reservoir for scattered Africans who are seeking a home, until a similar colony shall be started in some other part of Africa for them. This is a fact; and it is time and sixty seven, nearly half the number of that opposing whites and blacks should come to Lodges and almost the full number of affiliated that opposing whites and blacks should come to this conclusion. Liberia speaks for itself that years ago. this should be the conclusion of all parties. Its territory extends along the Atlantic coast six hundred miles, and averages in breadth twenty miles. Any extent of country can be obtained in length and breadth of the native owners by in Bank and other paying stocks, a capital of nurchase or gift, as it shall be needed. Its soil twenty seven thousand six hundred and twentyis clay mixed more or less with sand. Brick can be had at \$5 00 per thousand The water is plenty, soft, and good. PRACTICAL JOKES .-- We remember of hearing a story of a fellow who aroused a venerable doc for about 12 o'clock one winter's night, and comng to the door cool v inquired:

Have you lost a knife, Mr. Brown?' 'No,' growled the victim. Well never mind,' said the wag. 'I thought I'd just call and inquire, for I found one yester-

When the celebrated 'Copenhagen Jackson' was British Minister in this country, he resided in New York and occupied a house on Broadway. Neil one night at a late hour, in com pany with a bevy of rough riders, while pass ing the house, noticed it was brilliantly illumi

nated, and that several carriages were waiting at

y, and I not invited! I must see to that.' So, stepping up to the door, he gave a ring which soon brought the servant out.

'I want to see the British Minister,' said Neil. 'You must call some other time,' said the servant, 'for he is now engaged at a game of whist, and must not be disturbed.

The servant obeyed, and delivered his message

in so impressive a style as to bring Mr. Jackson to the door forthwith.

'Well,' said Mr. Jackson, 'what can be your business with me at this time of night, which is

so very urgent!'
'Are you Mr. Jackson?' asked Neil. sir, I am Mr. Jackson. "The British Minister?"

'You have a party here to night, I perceive, Mr. Jackson.'
'Yes sir, I have a party.'

'A large party, I presume.' 'Yes sir, a large party.'
'Playing cards I understand?'

'O, well,' said Neil, 'as I was passing I merely alled to inquire what's trumps.

Dr. Johnson was of opinion that it was better to be abused than not noticed at all, and since the same for the year was \$46,166 43. But de- his day the value of abuse has been so appreciasirable and important as all these possessions and ted that many have courted besides the mythical fices. Every year, through the education of small battery of invective, weak in proportion to alcof from the contest of 1856, or at most only their schools, this suitability is met by new actors its coarseness. Journals that have any reputa yielded a nominal support to the Opposition tion for ability have found it difficult to show ticket. It now hoists the names of Bell and just cause why the ticket should not command Everett, and with a jubilant shout enters the who have proved, by their lives, that the advancement in civil and moral character they expected to have by emigrating to Liberia has been obtained. They are no mean citizens, nor is their land a mean land.

State why he taket who have both the support of every conservative man in the Republic. Paying no attention to the papers which display no thought and no capacity for thinking outside of the narrow limits of party, we shall address ourselves to the only arguing the National Union Convention, believing as ment vet adduced by the opponents of the new we do, that no better men could have inforcement of the laws. It is contended that there are issues now be-

because they are of the black race. The yearly and that no party can go before the people with any hope of support without coming squarely and fairly up to the mark and announcing defiunited testimony that the industrious and pru- nitely, unmistakably, its views and its aims in dent black man will prosper in his business of reference to these issues. In reply, it need only disturb the repose of the Confederacy and to er to the country or to parties themselves, is the territorial question. This is the bone of contention, and the only one, as we conceive, now existing between the North and the South .-This it is which has rent in twain the great Dem ocratic party and constitutes the main basis of the Republican organization. It is conceded that if this solitary matter of disagreement were set at rest, or if the politicians would allow the people to hold fast to the opinion which is rap idly gaining ground, viz: that the question, in so far as present interests are concerned, is not a practical one-there being no possibility of car rying slavery into any of the incoming Territo ries-it is conceded that if this disturbing cause were removed, the country might remain indisputably at peace and the Government might pro-ceed at once to address itself to matters of vital mportance which have stood stock still for years in consequence of unnecessary agitation in regard to issues which had, for all we can see, been better left alone.

We deny, in the first place, that the Constitutional Union Party shirks any issue whatsoever, and we are willing to admit that the territorial question must, sooner or later, be settled. We are utterly unable to understand how a party which announces its purpose to rest upon the 'What!' exclaimed Neil; 'Jackson have a par

In the nature of things, differ ences of opinion must arise; but in the Consti tution, and nowhere else, so long as we consent to abide by it, the basis of adjustment must be found. Clinging to the fundamental idea of the agitators, come from what quarter they may, and with what specious plea they choose—the new party proposes simply to refer all questions at is sue to the written compact, interpreted in the fra ternal spirit wherewith it was originally framed And it proposes further to enforce the laws al ready made and agreed to.

With regard to the territorial question, we feel quite sure that all calm, sensible, reasoning men will admit, that, in the present aspect of affairs, there is little chance of any immediate settlement which would meet the wishes and the ex pectations of the country at large. A forced settlement would be no settlement at all. It would not be permitted to rest a moment. If it did not produce an open and lasting rupture, it would not be the fault of the Disunionists per se who are eagerly seeking the first opportunity that presents itself to consummate their wild designs. We think it can be shown to the entire satisfaction of every human being endowed with a spark of intelligence, that all this question wants is time. It dates no further back than the Kansas-Nebraska bill, and the time that has elapsed since then, viewed in the light of a nation's life, is brief indeed. It is not that the question has not been abundantly studied by the politicians and the editors, but the repose necessary to correct judgment has been wanting. The Constitutional Union Party has precisely this aim. It says, in effect, to the people: "Men and brethren, we are not in the proper frame of mind to settle this territorial question. Let us abide by the Constitution which our fathers made and which for so many years has been a common shelter and stronghold for us. Let us obey the laws, good or bad, so long as they are laws. Let us administer the Government honestly, purely, patriotically; and let us take honestly, purely, patriotically; and let us take time, ample time, to regain that friendly feeling without which the highest wisdom in the land would seek in vain to bring us to a common understanding of the matter at issue between

Ayer's Sarsaparilla

A compound remedy, in which we have la bored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as o afford an effective antidote for the disease arsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by expernt on many of the worst cases to be found

of the following complaints: SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AF-PECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the time ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative-medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later somethin must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else. During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for elieving it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on

SAMUEL GILL, Superintendent. May 11, 1960-17.

Wednesdfor President,

JOHN BELL, OF TENNESSEE.

For Vice President, EDW'D EVERETT OF MASSACHUSETTS.

The Baltimore and Ohio Railroad was one of the first railroad enterprises commenced in the United States. We believe work was com menced on it July 4th, 1828, and it is certainly one of the greatest works of the kind in this or any other country. More difficulties had to be overcome, and more skill was required in the location, we suppose, than on any road which has ever been built. We recently traveled over this road, and will give, briefly, some account of it, and in doing so shall avail ourselves of statisti cal information, &c., derived from others, and from publications, as well as from our own observation.

In order that we might pass over the most in teresting scenery on this road in the day time, we left Cincinnati on the Little Miami road, at 11 o'clock, P. M., and passing over that and the Central Ohio road reached Bellair, Ohio, at 10 o'clock, A. M., crossed the Ohio river immediately, and took the accommodation train at Binwood, Va. This train is run expressly to enable pas sengers to see the road and the splendid mountain scenery by daylight, arriving at Cumber land (200 miles) by supper time.

Some twenty odd years since we had traveled from Wheeling to Baltimore, partly by stage and partly by cars, on this road, and were prepared, in some degree, for the pleasure we should receive in viewing the splendid scenery and this magnificent work, but our anticipations were more than realized. The conductor on this train, Mr. D. Koonce, was very polite and attentive to all the passengers, and gave us notice whenever we were approaching any place of note. He al so gave us much valuable and interesting information in relation to the places and the incidents connected with them. The scenery on the whole route through the mountains is grand and beautiful, but that portion which interested us most was what is called the Cheat River Region, to give a description of it which will do justice is beyond our powers; it is grand beyond description. For several miles we ran along the steep mountain side, clinging, as it were, to the gigantic cliffs, our cars like cages suspended midway between heaven and earth, though upon the most abstantial and solid bed of masonry or the iron tressel work. At one moment the view was con flued to our immediate locality, hemmed in on every side by the towering mountains. In an other moment a slight curve in the road opened to our view the deep valley, with the dark flow ing river, and glorious views of the forest cov ered slopes descending to the waters edge. One cannot belp involuntarily drawing back as you eweep on, passing over the deep gorges, and looking down for hundreds of feet with nothing but the iron tressel work beneath you, and you start back amazed at the grandeur of the evervarying scenery. The engineering difficulties which were overcome in this part of the road must have been appalling, and none other than the most skillful and accomplished men would have undertaken the work, but thanks to their of Transportation on the Baltimore & Ohio which he held his head at the time, the principal skill, for us the rough places had been made as smooth as the valley.

HEADQUARTERS KENTUCKY STATE GUARD, Louisville, May 22d, 1860. 1.

1. The attention of officers of the Kentucky State Guard is called to that section of the Military Law which makes it the duty of the Inspector General to see that all officers shall qualify themselves for the duties of their respective positions. A close and careful study of "Hardee's Rifle and Light Infantry Tactics," on the part of the officers and non-commissioned officers is the only present means of their acquiring a proper degree of theoretical instruction, an I propering themselves for the summer encampments. The Tactics can be procured at most of the book-stores in Louisville, at \$13.59 per dozen copies. Every company should provide itself with not less than than the number.

2. The following rules will be observed by company. 2 The following rules will be observed by command-ers in the instruction of their companies and other com-

mands: a. The officers and non-commissioned officers will be a. The officers and non-commissioned officers will be assembled as frequently as possible for the purpose of discussing and reciting on the Tactics. They will also be thoroughly drilled, so that each may become qualified as an instructor in his appropriate command.

6. Instruction, both theoretical and practical will be given, according to the dividen of lessons in the Tactics, as the read est mode of attaining proficiency.

c Particular attention will be given to the following points of the instruction:

1. Doubling and undoubling files, both at a halt and in marching.

In marching.

2. In the double-quick step, with the proper cadence of 165 steps per minute. The step is apt to be too quick in the primary instructions.

3. In the loading and firing. Much time is usually cost in dwalling too long on these perflues of the ways. The Address of Rev. JAMES CRAIK, D. ROCKBRIDGE ALUM SPRINGS, VIRGINIA.

THIS favorite summer resort is now open to visitors. It has been the constant aim of the proprietors to increase its attractiveness and comfort—the fame of its medicinal waters being well established for many years. Since the last watering season a very spacious

BATHING ESTABLISHMENT

has been put up, combining the most modern improvements in Warm, Cold, Hot and Shower Baths. We hope, also, to complete in good time for the "Season" the celebrated "Basslan Steam Bath."

Our Pamphlet, (which will be sent promptly on application.) is filled with letters of the most eminent Physiciaus, Clergymen and others, attesting the virtues of this water in Dyspeptia, Chronic I iarrhoxa and Hysentery, Scrofula, and all Glandular and Skin Diseases, Chronic Nervous Complaints, Bronchitts, Piles, &c. &c.

The chief access is by the Virginia Central Railroad to Millboro', alve miles distant from Springs, thence by coaches. Passengers from the South and West, who come by the Virginia and Tennessee road, proceed to Lynchburg thence to Charlettsville and Millboro' depot.

The Hockbridge Alum being the first in order of the Virginia Springs, reached by the traveler or results for the celebrated White Sulphur, Sweet, Hot Springs, &c. &c., is a convenient resting point. We shall try to make it a comfortable one.

and the diseases resulting therefrom. This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is

destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge

of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so barassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase of bodily strength.

All those persons, to whom-we have particu-All those persons, to whome we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial.

CAUTION .- We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the

The Maynard Rifle and Shot-Gill.

PATENTED BY

Dr. Edward Maynard, of Washington, D. C.

The undersigned are the sole agents in Kentucky for the above celebrated arms.

The barrels are from 20 to 26 inches in length, and are breach-loading. The Rifle barrels may be disengaged, and the shot barrels inserted in ten seconds. When charged, the gun may be fired with the self-primer or a cap may be used. It can be loaded and discharged with certainty of aim ten times a minute. At 1,300, 700 and 500 yards upon experiment, the gun was found accurate and the penetration surprising.

The Stock and Rifle barrel weigh six pounds, and may be put up in a small case.

We have now on hand a supply of these guns, viz:
No. 1 Military finish, 20 to 26 inch barrel, Rifle only (or Rifle and Shot) 5-10 or 35-100 calibre, primers, moulds, cartridges, &c., to accompany.
No. 2, Sporting finish, 20 to 26 inch barrel, Rifle only (or Rifle and Shot) 5-10 to 35-100 calibre, primers, moulds, cartridges, &c., to accompany.
A printed direction for using the gun, with a complete description of it, may be had on application, and is sent with each one sold. We have the gun complete in cases.

Messra. Talicát & Underhill, Osrego, N. Y.

Gentlemen: I take pleasure in saying to you that the Water Wheel, (four test in diameter double issued) purchased of Mr. Samuel Reynolds, the inventor, is now in operation and is giving me entire satisfacton, coming fully up to what it was recommended to do.—My first trial with it was at a very low stage of water, only three and a half feet head. It gave full power, for one run 42 inch Burrs, Bolta, Smut Mill, &c., with the gate & open. When the water rose so as to give me five feet head I have full for two run of Burrs, doing full work, so that under the fall head (six feet) I have a surplus of power.

I have run in backwater to the depth of four feet with no perceivable loss of power. This Wheel is put in place of a thirteen feet diameter Breast Wheel, and gives fully double the power with about he same a mount of water that it did. I therefore take pleasure in paying you for it, believing that I now have a wheel that will last me 20, perhaps 50 years.

Signed, Very truly yours,

Jan. 25, 1860—doctwewam. W. H. McDONALD.
